

Recently graduated programmer required for small team in established and growing software company

Job Brief

We are looking for a talented programmer to create secure and functional code. You may have to provide quality coding solutions for both simple and complex web applications. The ideal candidate will have a passion for technology and software building. Attention to detail and an analytical mind are essential qualities.

About us

We are a small local software company who provide SaaS to businesses. We are a relaxed, hardworking group within a friendly, productive and co-operative environment. We work with modern open source tools implementing coding and security best practices. We have several software systems in the market and are moving forward with plans to grow the business and our software offerings.

Responsibilities

- Work in a team to produce reliable and user friendly software.
- Transform software designs and specifications into functioning code in the appropriate language(s).
- Integrate individual software solutions into higher level systems.
- Test code periodically to ensure it produces the desirable results and perform debugging when necessary.
- Perform upgrades to make software and systems more secure and efficient.
- Create mockups for proposed features or systems.

Requirements

- Comfortable working in a team.
- Comfortable taking guidance and direction from the senior programmer.
- Ability to communicate effectively with technical and non-technical teams.
- Detail-oriented and excellent concentration ability.
- An analytical mindset and critical thinking.
- Experience as a programmer or relevant role.
- BSc/BA in computer science, software engineering or relevant discipline.
- Produce secure and readable code.
- Expert in PHP, JavaScript, CSS, HTML, SQL.
- Demonstrable ability to discover and fix errors in code.

Preferred Qualities/Knowledge

- Knowledge of Git version control.
- Knowledge of Linux and the terminal.
- Knowledge of Bash script.
- Experience with Vue.js
- Comfortable taking calls and supporting users.
